Background

Section 42 of the *Planning, Development and Infrastructure Act 2016* (the Act) allows the State Planning Commission to issue practice directions for the purposes of the Act.

Generally, practice directions specify procedural requirements or steps in connection with a matter arising under the Act. In some instances, the Act mandates that specific matters be addressed through a practice direction.

Practice Direction 2 – Preparation and Amendment of Designated Instruments (Practice Direction 2) was first issued on 9 August 2018 to support the amendment process for the Planning and Design Code (the Code). Since then, it has been revised multiple times. It has been updated most recently to support a more stream-lined Code Amendment process for private proponents and to incorporate changes to support the Complying Code Amendment process envisioned through section 75 of the Act.

Whilst commonly used in section 73 processes relating to Code Amendments, Practice Direction 2 also applies to amendments of other statutory instruments, including:

- Regional Plans
- State Planning Policies; and
- Design Standards

With the first regional plan now in effect, it is timely to review and update Practice Direction 2 to ensure it effectively supports amendments across all designated instruments.

Discussion

A revised draft of Practice Direction 2 is attached for your consideration and approval (**Attachment 1**).

The updated draft builds upon the existing guidance for Code Amendments and extends its application, where appropriate, to all designated instruments. Specific provisions have also been introduced to address the unique requirements of regional plans.

The update also introduces guidance for Joint Amendments, as envisioned under Section 73(13) of the Act, allowing for simultaneous amendments to multiple instruments (e.g., a regional plan and the Code, or the Code and a design standard).

Due to the iterative updates made to the Practice Direction since its adoption in 2018 to support the planning reform program, it was also timely to review the overall structure of the Practice Direction and its drafting for consistency and readability.

Key changes

As overview, a summary of the amendments proposed include:

- **Simplified and expanded introduction:** to support the operation of part 5, Division 2, Subdivision 5 of the Act related to preparations and amendment of all designated instruments.
- **Revised Objects:** it now applies to all designated instruments and acknowledges the potential to undertake joint amendment procedures.
- **Updated definitions:**
 - Amendment: Clearly defined as the process of modifying a designated instrument.
 - Proponent: Expanded to include those relevant to regional plans.
 - Private Proponent: Now includes essential infrastructure providers in the context of regional plans.
 - Proposal to Initiate: Broadened to encompass all designated instruments.
- **Restructured content:**
 - To ensure better alignment with the stages of the amendment process.

- Clearer lodgement requirements at each stage.
- **Joint Amendment provisions:**
 - Enable concurrent procedures to be captured in one proposal.
- **Regional Plan Amendment provisions:**
 - New requirements introduced for each stage of the amendment process.
 - Guidance provided for regional plan content to support a complying change to the Code, including:
 - Existing overlays, zones, or subzones within the affected area.
 - Proposed concept plans and key matters to be addressed.
 - Indicative development density and building heights.
 - Matters requiring further investigation or consultation.
- **Engagement Plan requirements:**
 - Removed for regional plans and state planning policies the requirement to lodge an engagement plan for approval (unless specifically required by the Minister), aligning with the streamlined process used for Code Amendments.
 - Inclusion of requirement for engagement approval to be provided for relevant amendments identified in Practice Direction 18 – Outline Consent.
- **Early commencement clause:**
 - Clarifies that early commencement of an amendment to a Regional Plan may occur where the Minister considers it necessary for the orderly and proper development of the State to align.

Next Steps

It is recommended that:

- The proposed variations to Practice Direction 2 (**Attachment 1**) be approved by the Commission.
- The Department will then prepare a communications plan for the release of the Practice Direction and associated stakeholder letters for authorisation of the Chair.
- The Department will then lodge the Gazette Notice in **Attachment 2** and publish the updated Practice Direction on the Portal and implement the communications plan.

PRACTICE DIRECTION 2

Preparation and Amendment of Designated Instruments

This practice direction is issued by the State Planning Commission under section 42 of the *Planning, Development and Infrastructure Act 2016*.

Introduction

Section 42 of the *Planning, Development and Infrastructure Act 2016* (the Act) allows the State Planning Commission (the Commission) to issue practice directions for the purposes of the Act. Generally, practice directions specify procedural requirements or steps in connection with a matter arising under the Act. In certain cases, the Act requires a particular matter to be addressed or dealt with by a practice direction.

This practice direction is made by the Commission to support the operation of Part 5, Division 2, Subdivision 5 of the Act and sets out the requirements for amendments to designated instruments (a state planning policy, regional plan, the planning and design code or design standard).

The practice direction does not apply to Minor operational changes under section 76 of the Act.
