Would you like to talk to your representation at the decision-making hearing for this development?	Yes
My position is	I oppose the development

Reasons
I Michael Roy object to this development because it does not include the right to farm and no fruit fly control. There will be increased pressure on farming and shed operations all hours, theft of produce and trespassing. Chemical application to fruit trees is regular during the growing season to control fruit fly. No fruit trees should be planted on these housing blocks as we continue to have no control of fruit fly in this region. Backyard growers have been the downfall of fruit fly control on my orchards in this vicinity. I hereby place this development on notice that fruit fly incursions from this development affecting my income will be prosecuted vehemently. Dust, chemicals, noise, smoke, machinery are all part of farming operations. I am a fifth generation fruit grower. My family started growing fruit 175 years ago in South Australia, over 120 years in Renmark. Refer to website royfarms.com.au
