

DEVELOPMENT ACT 1993

NORTHWARD FILL (INKERMAN LANDFILL)

PROPOSAL TO INCREASE THE FINISHED LANDFORM HEIGHT

RELEASE OF AN ENVIRONMENTAL IMPACT STATEMENT (EIS) AMENDMENT FOR PUBLIC COMMENT

The Northward Fill (Inkerman Landfill) was granted a Development Authorisation by the Governor on 21 January 1999. The project was assessed under the major development provisions of Section 46 of the *Development Act 1993*. The level of assessment required the preparation of an Environmental Impact Statement to fully investigate the environmental, social and economic aspects of the development.

The landfill was established and is located approximately 85 kilometres north-west of Adelaide and approximately 15 kilometres south east of Port Wakefield, in the Wakefield Regional Council area.

The current owner, Cleanaway Waste Management Ltd, has now made application to vary its development authorisation to increase the final height of the landfill (i.e. rehabilitated landform) from 27 metres AHD to 32 metres AHD. The proponent has prepared an amendment to the Environmental Impact Statement that describes the proposed variation and its potential environmental, social and economic impacts. By way of this notice, this amendment is now being released for public comment from 12 July until 2 August 2018.
